Science and Change (and Miss Marple) If scientists are constantly trying to make new discoveries or to develop new concepts and theories, then the body of knowledge produced by science should undergo constant change. Private detectives and investigators search for information about legal, financial, and personal matters. They offer many services, such as verifying people's backgrounds and statements, finding missing persons, and investigating computer crimes. Cancer rates vary wildly across the world, and we don't know why. To solve this mystery, scientists are tracking down causes of cancer by the fingerprints they leave in the genome. Whether you are a hobby genealogist, a seasoned genetic genealogist, adopted and looking to discover unknown parentage or just curious, the DNA Detectives can help. - Change Detectives Science
