Q: Hi, Is there a way with my Honeywell CM927 that I can programme my heating to come on when I want it to come on and not when the temperature drops as I dont like the heating on all day and night. It continues to be on when I dont want it too be on. A: Hi I'm afraid it can't be programmed as on/off control only. I would suggest just programming very high/very low temperatures instead. - Honeywell Cm927 Instruction Manual
