I have read most of Maeve Binchy's books, and she only seemed to get better with every one. Minding Frankie is a tale of redemption. There is a lot of reality, but nobody is painted as being the villain, not even the dreaded social worker. As usual Maeve Binchy doesn't disappoint with Minding Frankie. We are introduced to Noel, a single man living at home, drinking too much and in a dead end job. Then he gets a request to come see a woman he doesn't remember, Stella at the hospital. Stella is dying of cancer, and says that the baby she is pregnant with is his. She wants him to take care of Frankie when she passes. Noel thinks she is crazy, but his cousin from America, Emily, thinks otherwise. Maeve Binchy is back with a tale of joy, heartbreak and hope, about a motherless girl collectively raised by a close-knit Dublin community. When Noel learns that his terminally ill former flame is pregnant with his child, he agrees to take guardianship of the baby girl once she's born. Baby Frankie is born into an unusual family. Her mother is desperate to find someone to take care of her child and she doesn't have much time. - Minding Frankie Maeve Binchy
