

Download One Step Equations With Fractions

Improve your math knowledge with free questions in "Solve one-step equations with decimals, fractions, and mixed numbers" and thousands of other math skills. Play this one-step equation game alone or with another student. The equations in this game involve addition and subtraction of whole numbers as well as some fractions. Remember that what you do to one side, you have to do to the other. Will you multiply or divide both sides to dump the fraction, x/a ? Let's do it together. Equations like $5n/4 = 10$, can also be solved using two opposite steps such as $\times 4$ then divide by 5. We will be looking at two step equations in a separate article on this blog. - One Step Equations With Fractions
