Unter einer Mondkolonisation wird die Gründung und Entwicklung von Siedlungen (lat. colonia: Ansiedlung) auf dem Mond verstanden. Neben zahlreichen Programmen zur Erforschung des Mondes existieren derzeit auch Bestrebungen, die eine Kolonisation durch den Menschen zum Ziel haben. spends the time and money to develop these products for use in space, but usually there are many civilian applications for the same products. Production of these product leads to redevelopment, sales and distribution - all of which leads to more jobs; somebody has to build, sell, and repair. Raw opal found in Andamooka South Australia - photo credit CR Peters. Mars is different from asteroids or the Moon here, so it could have unique deposits. There are very few books available on the subject. I am not aware of a more researched one than One Small Step? The Great Moon Hoax and the Race to Dominate Earth From Space by German researcher Gerhard Wisnewski, originally published in 2005, from which I will quote repeatedly. - The Value Of The Moon How To Explore Live And Prosper In Space Using The Moon S Resources
